Example 1: Unlike sheep and goats, there is no floor buyer for beef. In most cases, all beef going through the 4-H livestock auction will be marked for “premium only”. This animal is going through the livestock auction for premium, and then is being sent to the locker. (Most Common)

Example 2: This animal is going through the 4-H livestock auction for premium, and then will go home afterward. (Common)

Example 3: This animal is not going through the livestock auction and will go straight to the locker. This is common for exhibitors with multiple animals. (Somewhat Common)

Example 4: This animal is not going through the livestock auction and will go home after the Fair. (Not Common)
